Title : Declaration of REACH Compliance

TO WHOM IT MAY CONCERN

Re: Manufacturer's Certification

REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals)

In response to the European Commission's REACH regulation concerning Registration, Evaluation, Authorization, and Restriction of Chemicals, we certify as follows: although LS-Electric is principally a supplier of articles which do not require registration, we have been actively pursuing a process of contacting our suppliers of substances, preparations, and articles to ensure that all necessary pre-registration and subsequent registration requirements are complied with in the required timescales. This effort extends to all materials used by LS-Electric that are within the scope of REACH and with regard to the applications in which the materials are used in our products. We have undertaken this activity with the objective of ensuring that there will be an ongoing supply of all materials used in LS-Electric's products and processes and consequently no interruption in the supply of products to our customers.

LS-Electric is also aware that the European Chemical Agency (ECHA) has identified a list of 224 substances, <https://echa.europa.eu/home> (cited 10th June 2022, specified on following pages), that are under consideration for inclusion in ANNEX XV as Substances of Very High Concern (SVHCs). We have already determined that our products do not contain any of these SVHCs above the threshold of 0.1% by weight.

Should you have any additional questions, do not hesitate to contact us.
