

CERTIFICATE OF COMPLIANCE

Certificate Number 20171221-E255738
Report Reference E255738-20060201
Issue Date 2017-DECEMBER-21

Issued to: LS MECAPION CO LTD
12-9 Hosandong-ro Dalseo-gu
Daegu 42714 KOREA

This is to certify that representative samples of COMPONENT - SERVO AND STEPPER MOTORS
See addendum page

Have been investigated by UL in accordance with the Standard(s) indicated on this Certificate.

Standard(s) for Safety: ROTATING ELECTRICAL MACHINES – GENERAL REQUIREMENTS, UL1004-1
SERVO AND STEPPER MOTORS, UL1004-6
MOTORS AND GENERATORS, CSA C22.2 No.100

Additional Information: See the UL Online Certifications Directory at www.ul.com/database for additional information

Only those products bearing the UL Certification Mark should be considered as being covered by UL's Certification and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identification and catalog number, model number or other product designation as specified under "Marking" for the particular Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark:  may be used in conjunction with the required Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding the recognitions or under "Markings" for the individual recognitions.

Recognized components are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. The final acceptance of the component is dependent upon its installation and use in complete equipment submitted to UL LLC.

Look for the UL Certification Mark on the product.

Bruce Mahrenholz, Director North American Certification Program
UL LLC
